September 4th, 1913

hon. Walter S. Bruce,
Boise, Idaho.

Dear Sir:

I understand that Dr. A. W. Hendrick is a candidate for the Presidency of the State University of Idaho, and I have been asked to forward a letter in support of his candidature.

Though I have not the pleasure of personal acquaintance with Dr. Hendrick, I made inquiries concerning him some months ago from members of our staff in view of another position for which he was an applicant. The opinions that I received at that time were uniformly favourable to Dr. Hendrick. He was a good student in this University. I understand that he had also had extensive experience in administration, which combined with his academic standing should qualify him for the position in Idaho which was recently held by another graduate of the University of Toronto, Dr. J. A. McLean, now President of the University of Manitoba.

Yours sincerely,

President.
